RETIREMENT TAX BILL

Embed Quick Start Guide

A simple guide for adding your customized Retirement Tax Bill tool to a website.

1

Choose where the tool should appear

Select the webpage where you would like visitors to use the Retirement Tax Bill tool. This may be a dedicated landing page, a resources page, or another page on your website.

2

Open the page editor

Sign in to your website platform and open the page for editing. Look for an option labeled HTML, Embed, Custom Code, Code Block, or a similar term.

3

Paste the embed code

Copy the full embed code from your delivery email and paste it into the HTML or embed section. Do not edit or remove any part of the code.

4

Save and publish

Save your changes and publish or update the webpage. The Retirement Tax Bill tool should now appear in the selected location.

5

Review and test

Open the live page on both desktop and mobile. Confirm that the tool displays correctly, then complete a test submission to make sure the experience works as expected.
